AFNR Plants and Horticulture Soil Nutrients

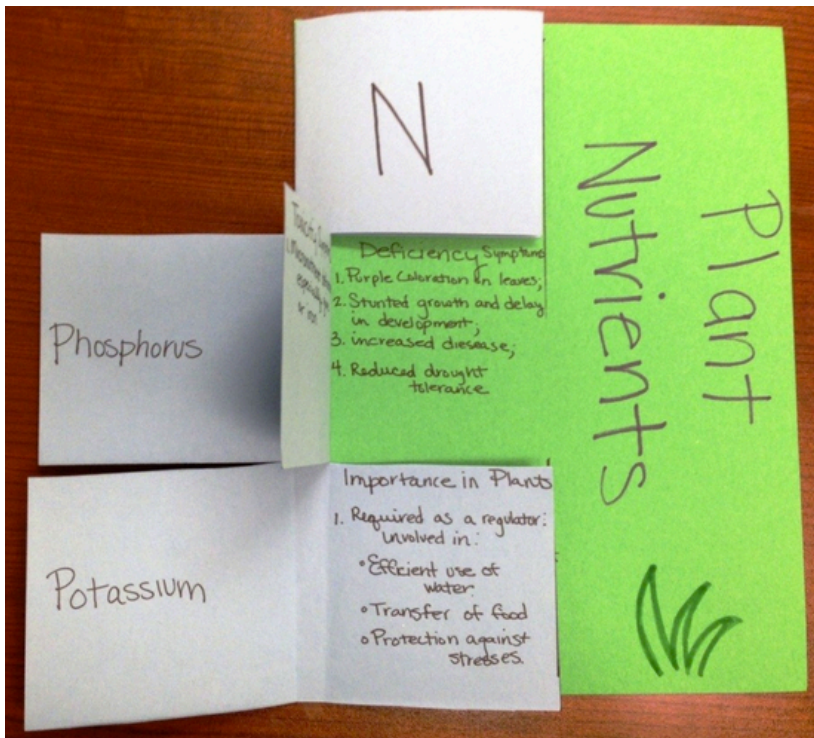

N-P-K Foldable

Materials:

- 2 pieces of paper of different colors
- Scissors
- Glue sticks
- Writing utensil

Methods:

1. Fold one sheet of white paper in half horizontally.
2. Then fold the paper three times vertically and then unfold the paper.
3. Cut the paper on the three folded vertical lines to the horizontal fold.
4. Fold a glue line, so once attached to the other sheet of paper, both pages can flap.
5. Add information about each nutrient, deficiency symptoms, and toxicity symptoms
