

Global Trade in Agriculture

Lesson plan: Global trade career video

During this activity students will explore careers related to agriculture and global trade. Students complete a profile page that is unique to them, then share their information through discussion.

Sequence

Lesson 4 of the unit: *Global Trade in Agriculture*

Time

50 minutes

Grade Level

9-12

Materials

Copies of the Career Video Analysis pdf *-included*

Copies of Career Profile pdf *-included*

Internet access

Objectives

Students will record information about the impact of Ohio soybeans on global agriculture trade.

Students will research a career in agriculture.

Vocabulary

Agriculture, Global Trade, Infrastructure, Career

Prior Knowledge

Students should have completed lessons 1-3 of Global Trade in Agriculture, though this lesson does stand alone as an extension activity. Students should have a basic understanding of the role that agriculture plays in our economy, and the impact that crops grown in the United States have on global trade.

5E Plan

Engage

Begin by watching the video linked on the Career Video Analysis pdf.

Students should answer the questions on the Analysis sheet as they watch the video.

Explore

Using the websites linked, students should complete the Career Profile pdf about a career in agriculture.

Explain

Students should discuss the careers they have researched. Students may discuss in small groups or share out in a whole class discussion.

Extend

Have students research a second career in agriculture.

Have students post their careers on the wall or their desks, then do a gallery walk of the career pages.

Evaluate

Discuss video questions as a class or in small groups.

Collect and review the student Career Profile pdfs.

Guide your students into finding careers that they might actually be interested in, and push them to discuss the careers they've found with their peers.
