

**Hello, my name is... GMO**

## **What is a GMO?**

**How does the study of GMOs apply to engineering? What is the problem that GMOs are attempting to solve?**

**What do you know about GMOs?**

1. Write down your definition of a GMO.
2. Watch the Jimmy Kimmel clip, then tell the person next to you what your definition is and listen to theirs.
3. On the GMO definition slide there are four different types of “genetic modification.” Which of these definitions do you think is the best definition? What is the evidence/support for your answer?
4. Timeline activity: Which of these events has had the most influence on the current thinking by the public about GMOs?
5. Now that you have completed this activity, what questions do you have about GMOs?
